

## Thames Valley IT & Telecoms Forum

### **Our Vision**

To build a community for business leaders of the Thames Valley IT & Telecoms industry to share knowledge and best practice, collaborate, inspire and provide support in order to achieve mutual growth and success.

### **Our Objectives**

- To facilitate a forum for senior managers and owners of IT & Telecoms companies in the Thames Valley
- To provide a friendly environment for industry leader to present and members to discuss current issues
- To build on those discussions to develop a community for individuals to share knowledge and experience
- To encourage a trusted environment where individuals can seek and give advice in confidence
- To provide a risk free, sales free network which shares mutual opportunities and develops partnerships
- To encourage feedback from the members to improve the relevance and usefulness of the forum and to enable it to develop and flourish

### **Our Attendees**

- Individuals in senior management or director level positions in local IT & Telecoms companies.
- Individuals who are ambitious, enthusiastic, open minded and collaborative
- Individuals keen to develop long term relationships with similar individuals
- Individuals who are looking to share advice, experience and contacts

Thames Valley IT & Telecoms Forum events are held on a quarterly basis. Events take place at the venues of leading IT & Telecoms organisations across the Thames Valley. Attendance at the IT & Telecoms Forum is free of charge to members and invitees. Attendance is by invitation only.
